Certificate chain file format

Champlain College offers the Undergraduate Certificate online in Supply Chain Management. Supply chain management is active management of supply chain activities to maximize customer value and achieve a sustainable competitive advantage. This Supply Chain Management Certificate will teach you how to: Identify supply chain problems, collaborate with other supply chain partners and develop creative solutions Cultivate new approaches to the supply chain including ways to cooperate with supply chain partners using current concepts and elements Use a systems perspective to integrate many pieces of information across the supply chain into a single guideline for decision and action Recognize when changes in the environment require adjustments to the supply chain, and how to collaboratively make those changes% Online 100% Online High School or Equivalent 2.5 or higher (scale 4.0) English Language Mastery Test (International Students) Official High School Transcript/GED Score , CURRICULUM/CV, Essay/Writing shows Copyright ©2020 GetEducated.com; Approved Colleges, LLC All Rights Reserved Supply chain management is a growing field and a successful profession, as a recent survey by the Association for Supply Chain Management (APICS) found that 96 percent of respondents were very satisfied with their SCM career, with an average rating of 8.4 out of 10. The survey also found it worth getting certified. SCM professionals with at least one certification receive an average payment 19 percent higher than those who are not certified, and those with two or three certifications earn salaries that are 39 percent and 50 percent higher than the median, respectively. Whether you're already making a career in supply chain management, or want to break into the field, here are eight supply chain management certifications that can round up your resume and give you an edge against the competition. Top 8 Certifications SCM Certifications APICS Certified Supply Chain Professional Certification (CSCP) APICS Certified in Production and Inventory Management (CPIM) APICS Supply Chain Operations Reference (SCOR-P) Endorsement ISM Certified Professional in Supply Management (CPSM) ISM Certified Professional in Supplier Diversity (CPSDD) CERTIFIC APICS Certified Supply Chain Professional (CSCP) of the SCPro Council of Supply Chain Management Professionals (CSCMP) SOLE Certified Professional Logistician (CPL) NCMA Certified Contract Manager (CPCM) APICS Certified Supply Chain Professional certification (CSCP) offers three certifications to demonstrate your SCM skills. To be eligible to take the CSCP exam, three years of related experience or a bachelor's degree or international equivalent. To maintain certification, you will need to earn a total of 75 career development points every five years. If your certification is not maintained within five years, it will expire before the 10-year mark and you will be asked to take the exam again. For each year your certification, certification, 15 additional career development points. Exam fee: \$695 for Plus members, \$965 for Core and non-members A repeat fee: \$450 Renewal license: \$75 for members, \$150 for non-member expiration: 10 years Certified in Production and Inventory Management (CPIM) You will need to pass two exams within three years to earn your APICS Production and Inventory Management (CPIM) certification, and you will need to maintain your certification every five years by completing 75 career development points. When considering the cost, remember that you will have to pay the fee for both exams, the fee only applies to one exam at a time. Like CSCP certification, you must submit an additional 15 points for each year your certification is suspended if you let it expire. Exam fee: \$495 per exam for Plus members, \$690 per exam for Core and non-members Re repetition house: \$250 Re renewal severity: \$75 for members, \$150 for non-members Expiration: 10 years APICS Supply Chain Operations Reference (SCOR-P) Endorsement The SCOR-P endorsement from APICS validates its knowledge in the Supply Chain Operations Reference (SCOR model). The SCOR model is a supply chain approach that helps link SCM to business objectives, metrics, processes, and other internal departments and stakeholders. The exam is included in the course, which broadly covers the SCOR model to help you apply it to real-life supply chain issues, support the organization's goals, improve efficiency, organize SCOR projects, and implement processes. Exam fee: The exam fee is included in the course fee, which varies by program Somar repeat fee: \$350 Renewal house: N/A Expiration: N/A ISM Certified Professional in Supply Management (CPSM) offers a Professional in Supply Management (CPSM) certification that validates your knowledge of supply management functions in various industries. Pass three exams you can take in any order: To qualify, you will need three years of full-time SCM experience in a non-clerical or supportive position. To maintain and renew your certification after four years, you will need to earn 60 hours of approved continuing education credits. If you have already passed ISM CPSD certification (see below), you will not need to take the base exam for CPSM certification as it is included in both. If you are not already a member, the cost of the non-member fee for the exam also includes one year of ISM Direct membership. Application fee: \$119 for members, \$179 for non-members Exam fee: \$229 for members, \$379 for non-members Recoying line: \$379 M renewal fee: \$75 for members, \$150 for non-members Expiration: 4 years PROFESSIONAL Certified in Diversity of Providers (CPSD) The ISM certification is certified Certified Professional Provider Diversity (CPSD) certification, which you can obtain in addition to ISM CPSM certification. CPSD certification consists of two exams, but you can skip the foundational exam if you already have your CPSM CPSM To qualify for the exam, you will need three years of supplier diversity or management experience and a bachelor's degree, or five years of experience. To maintain your certification, you will need to complete 50 hours of continuing education credits approved over a three-year period. Application fee: \$119 for members, \$179 for non-member fee Exam: \$229 for members, \$379 for non-members Expiration: \$379 Renewal house: \$75 for members, \$150 for non-members Expiration: 3 years SCPro Council of Supply Chain Management Professionals (CSCMP) The SCPro Council of Supply Chain Management Professionals (CSCMP) certification is unique in combining a multi-level education with a three-tier examination process. There are three levels of SCPro certification and the first level, Cornerstones of Supply Chain Management, covers the fundamentals and eight elements of supply chain management. At the second level, Analysis and Application of Supply Chain Challenges, you will be tested for your ability to apply SCM knowledge in different scenarios. The third and final level, Initiation of Supply Chain Transformation, certifies its ability to positively impact an organization through a hands-on project that demonstrates its skills. You will need to renew your certification for all three levels every three years, which will require 60 hours of eligible professional development activities. You will need to complete at least 20 hours of professional development per year, but no more than 30 hours per year. Level 1 exam fee: \$650 for members, \$975 for non-members Level 2 exam: \$1,095 for members, \$1,500 for non-members Sal Level 3 exam fee: N/A Renewal fee: \$50 for members, \$100 for non-members Expiration: 4 years SOLE Certified Professional Logistician (CPL) The International Society of Logistics (SOLE) offers a Certified Professional Logistician (CPL) certification in logistics, which is a key element of supply chain management in certain industries such as commerce, defense, federal and local government agencies, and education. The review is conducted over a six-hour period, with three two-hour sessions; you will need to pass all three exams before you can earn your certification. To qualify for the CPL exam, you will need at least nine years of experience practicing or teaching logistics and two years of experience in at least two fields of logistics. Each year of accredited undergraduate courses in logistics matters is equivalent to one year of professional experience, up to four years. For those with a master's or doctorate, you'll need four or three years of additional experience, respectively. Exam fee: \$225 for members, \$375 for non-members Reservation fee: \$50 Rea renewal fee: N/A Expiration: CNCMA Certified does not expire Contract Manager (CPCM) The National Contract Management Association (NCMA) offers multiple certifications, including the Certified Professional Contract Manager (CPCM). Candidates for the exam will need a solid understanding of Certified Certified Management (CMBOK), business and training education and a minimum of five years of experience in a relevant field. NCMA also offers a Certified Federal Contract Manager (CFCM) certification for those working in or with the government and a Certified Commercial Contract Manager (CCCM) certification for those in the commercial industry. Application fee: \$210 for members, \$410 for non-members Sonity of service: \$125 for national exams, \$150 for international exams Men repetition fee: \$100 per national, \$130 for international exams A renewal fee: \$95 for members, \$145 non-members Calinas: 5 years Copyright © 2018 DG I Communications, Inc.
